

# Behavioral Health Support for Children of All Ages and Conditions

*Comprehensive therapy and counseling experts to support the child and family*

DMG Children's Rehabilitative Services (DMG CRS) has been supporting children with a variety of medical conditions for more than a decade. We provide multispecialty care and support for 16,000 children of all ages and their families annually.

## Experts in Pediatric Behavioral Health

Specially trained to support pediatric patients, **DMG CRS** includes board certified psychiatrists, licensed psychologists, certified advanced practitioners, and licensed social workers. Our behavioral health providers employ the appropriate counseling and tools for the child's age, diagnosis, and medical treatment plan.

### We support children and their families with:

- Anxiety
- Behavioral challenges
- Coping with pain
- Depression
- Feeding problems
- Parent-child interactions
- Pre-surgical evaluations
- Psychiatric medication evaluation
- Psychological testing (ADHD, learning disabilities, DDD qualification)
- Medical treatment adherence
- Toilet training
- Transitioning to adult care
- Trauma/post traumatic stress disorder (PTSD)

## Easy-to-Access Location

Located in Midtown Phoenix, DMG CRS is easily accessible from anywhere in the Valley, and we:

- Are in a one-story building making it easier for patients with mobility challenges
- Have free parking right outside the entrance

Located at Park Central  
3141 N. 3rd Ave., Ste. 100  
Phoenix, AZ 85013

To refer a pediatric patient or schedule an appointment, call (602) 914-1520.

## A Partnership with Referring Providers, Schools, and Families

DMG CRS behavioral health specialists provide guidance on modifying or managing behavior and consult with referring providers, school psychologists, and other community professionals to support the child's lifestyle needs. Our goal is to optimize the child's emotional and mental wellbeing so they can positively participate in school, family, and social activities to the best of their abilities.

### Integrated Care in One Location

As the largest Multi-Specialty Interdisciplinary Clinic (MSIC) in Arizona and the only one in Maricopa County, our team includes medical providers and support services across more than 25 medical specialties and sub-specialties. Based on the child's needs, an integrated care plan will be developed in partnership with other DMG CRS medical specialists to make receiving complete care as easy and convenient as possible for the child and their family.

To refer a pediatric patient or schedule an appointment, call (602) 914-1520.
