

## Complete Medical Care for All Children in One Location

With comprehensive medical specialties, dental services, labs and x-rays in one building, DMG CRS can support the health of all the children in your family – from infants to teens. **Our team of pediatric providers includes experts in more than 25 medical specialties, including but not limited to:**

- Augmentative and alternative communication (AAC)
- Behavioral health
- Cardiology
- Dental health
- Diabetes and endocrinology
- Ears, nose and throat (otolaryngology)
- Kidney disease/nephrology
- Gastroenterology
- Genetics
- Neurology
- Occupational, physical and speech therapies
- Ophthalmology and eye care
- Orthopedics
- Plastic and reconstructive surgery
- Primary care

At DMG CRS, we understand that busy schedules and the diverse needs of each of your children make coordinating the right care at the right time challenging. We're here to help by supporting your family through what we call the *DMG CRS Difference*.

### Coordinated Care

One electronic medical record (EMR) so all medical providers supporting your child have access to their complete medical records

All medical specialties as well as services such as labs, x-rays, pharmacy, and social workers on-site

### Accessible Care

Most commercial insurance accepted, including AHCCCS

Coordination of appointments with multiple specialists or for multiple children in the family, when possible

Translation services available, in addition to many bilingual staff members

### Convenient Care

Free, convenient parking just steps from the DMG CRS multispecialty clinic

A one-story building making access easier for all

Located at Park Central in Midtown Phoenix, easily accessible from anywhere in the Valley
